

ARYEL EVELIN VIEIRA GARCIA

T-Shaped Profile | Technical Product Manager, Growth & AI Content Strategist

Morrinhos, GO | (64) 99305-5216 | yel.evelin@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

I am a T-Shaped professional with solid experience at the intersection of Product, Technology, Growth, and Strategic Communication. Consolidated track record as Product Owner and Business Analyst at Thomson Reuters, leading complex requirements, BPMN modeling, API integrations, and agile backlog management. Complemented by my analytical vision with strong performance in Digital Marketing, direct-response copywriting, high-retention scripting (VSL), paid traffic (Google Ads), and operational automations driven by Artificial Intelligence (Python + AI, RLHF, and prompt engineering). Unique capability to structure digital ecosystems from end to end: from the tactical rigor of corporate processes to conversion and emotional connection with the public.

PROFESSIONAL EXPERIENCE

Mid-level Business Analyst (Product Owner) | Thomson Reuters Brazil (Remote) November 2021 - March 2026

- Managed agile product adaptation facing critical market regulatory changes, mapping flows via BPMN and leading technical validation to ensure compliance.
- Led the expansion of high-complexity integrations and APIs, optimizing customer journeys and reducing execution time for manual billing tasks.
- Acted as a bridge between technical, business, and support areas, modeling operational flows and structuring clear documentation for SaaS platform scalability.
- Complete backlog management, business value-based prioritization, and facilitation of agile ceremonies (Scrum/Kanban).

Content Strategist, Copywriter & Growth | Authorial Projects and Freelancer (Remote) November 2023 - Present

- Professional scripting of strategic content and VSLs, combining audience behavioral analysis and direct-response copy focused on high retention and conversion.
- Development of AI-integrated Python scripts for niche analysis, market trends, and support for data-driven editorial decisions.
- Paid traffic management (Google Ads) and structuring of performance campaigns oriented toward conversion funnels.
- Publication of authorial works with intellectual property protection registration, including nationally recognized literary curation (such as the São Paulo International Book Biennial).

AI Training Specialist & Prompt Engineer | Alignerr | Mindrift | Outlier (Remote) November 2023 - Present

- Translation of complex business rules into logical training parameters (RLHF) for LLMs, applying requirements engineering rigor.
- Evaluation and refinement of generative flows and artificial intelligence agents aimed at process automation and operational efficiency.

IT, Marketing and Process Analyst | ACSSoftware - Manage Engine (Remote) July 2018 - November 2021

- Leadership in agile process implementation, project management, and continuous compliance with LGPD in corporate ecosystems.
- Conceptualization and scripting of 'Podcafé Tech', structuring format and brand tone of voice, alongside simultaneous management of 5 corporate blogs and SEO on WordPress.
- Consulting, requirements analysis, and implementation of management software (ERP/CRM) for medium and large clients.

T-SHAPED SKILLS & COMPETENCIES

- Product & Technology:** Backlog Management, Prioritization (Scrum/Kanban), BPMN Mapping, API Integration, Solution Architecture, ERP/CRM Implementation.
- Growth & Marketing:** Direct-Response Copywriting, VSL Scripting, Paid Traffic (Google Ads), Storytelling, Funnel Structuring, SEO & WordPress.
